GRADES 2-4

8:30-10 AM

10:30 AM-NOON

1-2:30 PM

3-4:30 PM

BEAUTIFUL YOU INSIDE AND OUT 96979

Danielle Meyer, Licensed Cosmetologist

Learn about fashion, yoga and communication, as well as hair and skin care. You'll get to practice safe manicure and pedicure steps, learn how to do a facial, apply and use makeup and try hair styles. We'll also stress that appearance is only one part of your health and wellness.

CHALK ART 96980

Sarah, Danielle and Liz Lensen, Local Chalk Artists

Join local chalk artists to learn how to create awesome art with chalk in different ways! Explore art on different mediums including paper and concrete (outside/weather permitting) using chalk! Work on individual pieces and on a group piece!

KOC CHEER TEAM 96983

Tricia Brosius, Local Cheer Enthusiast

Join us outside for some fresh air, fitness and fun. We will focus on the benefits of staying active, importance of skill work and how to work as a team. With a variety of interactive activities including dodgeball, kickball, partner circuits, relays and more.

ON TARGET: ARCHERY AWESOMENESS 96982

Tri State Archery

This ancient sport is suddenly popular again, thanks to modern heroes like Hawkeye in The Avengers. You will learn to handle a bow and arrow, practice basic shooting form and understand the rules, scoring procedures and etiquette of archery.

LINE DANCING 96993

Angela Williams and Bridget Schaufenbuel, NICC Dance Instructors

Get ready for the dance floor! Come learn some fun line dances! It's a great way to learn some moves and get some great exercise.

INSECT SAFARI 96991

Paul Kimball, Science Guru, NICC Science Faculty

Crawl into the fascinating world of insects with our "Crazy Professor." Chase bugs, beetles and butterflies, and find out how all sorts of creepy critters live. You'll be surprised by the things you'll learn!

PAINTING ON CANVAS 96997

Kelsie Von Hollen, Captured on Canvas

Let's explore the world of painting! We supply the paint and the canvas and you supply the creativity. Learn the basics of painting, such as colors, brushes, techniques and more. The results are sure to bring a work of art you can take home and display!

THE TRENDSETTER 96992

Jessica Pfohl Paisley, PS Styling

Design your own look and upcycle old styles to make them new again. We will turn last year's look to this year's trend and showcase your creations in your own style show!

COOL CHEMISTRY, LEVEL 1 97025

Paul Kimball, Science Guru, NICC Science Faculty

Our "Crazy Professor" has been brewing up a few new explosions in his lab. Oops...we mean experiments. Learn how to make slime, identify atoms and molecules and do all sorts of cool stuff that requires the use of safety goggles! (Goggles are provided.)

CROCHETING: FUN WITH YARN 97027

Marcus Ingles, NICC Staff

Crocheting has taken the world by storm. It's quick, easy to learn and all you need is some yarn. Before you know it, you'll be making blankets and scarves. Make and take home a crocheted mushroom fidget. It's highly addictive and you will love it!

DINOSAURS...SHARKS...OH MY 97029

Verrick Foust, NICC Staff and FIRST LEGO® Robotics Mentor

Embark on a thrilling journey through time with our Prehistoric Sea and Sky Explorers class! Are you fascinated by dinosaurs and sharks? Unearth the mysteries of dinosaurs and dive into the depths with ancient sharks in this epic adventure.

DUNGEONS AND DRAGONS™ 97026

Joshua Morris, Clarke University Faculty

Are you a fan of movies like "The Lord of the Rings," "The Princess Bride," or "Narnia?" Discover how you can create your own unique fantasy script through the gameplay of Dungeons and Dragons™. Use narrative techniques, such as dialogue, description and sensory language, to capture the epic quests of your character.

GRADES 5-7

8:30-10 AM

10:30 AM-NOON

1-2:30 PM

3-4:30 PM

3D PRINTING 96985

Verrick Foust, NICC IT and FIRST LEGO® Robotics Mentor

Get ready for a fun week of technology! Discover the amazing process of printing three dimensional objects. Additive manufacturing basics and hands-on modeling will be explored.

BASIC COMPUTER NETWORKING 96987

Maren Larsen, NICC Faculty

Are you interested in how computers connect to each other? Look at the components of a network, such as switches, routers and servers. Have fun creating your own network with an online tool in which you can add your own components and connect them. Plus, we will tour the networking lab data center!

DRONES 97069

See Description Above

THE TRENDSETTER 96992

See Description Above

JUNIOR ROBOTICS 97074

Verrick Foust, NICC IT and FIRST LEGO® Robotics Mentor

Who likes to build with LEGO® bricks? Campers will build, program, and design robots using the LEGO® robotics system. We will build a new robot out of LEGO® bricks and write programs to make the robot complete various tasks. This is a fun introduction to simple machines, robotics and programming!

BEAUTIFUL YOU INSIDE AND OUT 96979

See Description Above

DUNGEONS AND DRAGONS 97026

See Description Above

ON TARGET: ARCHERY AWESOMENESS 96982

See Description Above

CREATIVE DRAWING 97080

Heather Noethe, Captured on Canvas

Do you love to draw and be creative? Have fun creating and learning new techniques such as proper proportions, composition and shading! By the end of the week, you'll have some creations to take home to show off!

MINECRAFT® 97077

Ezra Hershberger, NICC Esports Coach

Enter the virtual world of Minecraft®! Work in "zones" to solve problems by putting your head together with others'. You'll learn how to get along on a team, collect materials and build structures to complete a variety of interesting challenges.

LINE DANCING 96993

See Description Above

ANIMAL C.A.R.E. 97068

See Description Above

ANIMAL C.A.R.E. 97068

Kelz Schmidt, Community Youth Enrichment and Animal Enthusiast

Cats, dogs, snakes, rabbits, and more! If you love animals, this session is for you! While sharing the importance of empathy towards all living and non-living things, staff will aid students in caring for and greeting different species of animals!
NOTE: if you are allergic to pets, this is not the class for you.

DRONES 97069

Mike Williams, Elevated Images

Learn basic flight techniques and safety rules for flying a drone. Once you've got the hang of it, you can compete in drone races and other challenges, program the drone to follow a course and try aerial videography. It's an adventure you don't want to miss!

HAVE-A-BALL BOWLING 97071

Steven Habel, Round Two

Bowling is a great way to be active and learn a skill! Have some fun at Round Two Bowling Lanes learning and practicing to bowl.

LEGO® MANIA 97070

Verrick Foust, NICC Staff and FIRST LEGO® Robotics Mentor

Unleash your creativity and engineering prowess in our LEGO® building class. Dive into a world where building blocks become the foundation of your imagination. See if you can complete some LEGO® challenges and become a LEGO® Master Builder!

CAMP SCRUBS 97082

NICC Health Faculty

Scrub up and enter the world of medicine. Discover what it takes to be a nurse, radiologic technologist, respiratory therapist and paramedic! Learn to take blood pressure, start an I.V., and why and how to take an x-ray.

COOL CHEMISTRY LEVEL 2 97081

Paul Kimball, Science Guru, NICC Science Faculty

If you've loved the Cool Chemistry workshop before, you will be "blown away" in Level 2. There will be more interesting ideas, problems to solve, questions to answer and awesome explosions...uh...experiments!

VOLLEYBALL 97084

Riley Deere, All Stars Volleyball Coach

Volleyball is a great way to develop better confidence while improving teamwork and communication skills! If you love volleyball and want to improve your skills, this is your session!

CROCHETING: FUN WITH YARN 97027
